

SAFETY PARTITIONS & SHIELDS

Physical Barriers for Protection Against Airborne Contaminants

**Easy to Clean/
Sanitize**

Easily cleanable to sanitize as often as required. Clear sections are industrial-strength 20gpe vinyl and solid colours are heavy-duty 18oz vinyl to withstand even the toughest commercial applications.

All barriers come with a clear pocket that will hold an 8.5" x 11" standard sheet of paper for notices or marketing materials.

Information pocket

**Threadless hems &
material joins**

Our barriers are virtually **THREADLESS!** Hems and material joins are welded instead of stitched to limit opportunities for bacteria and virus transmission and survivability.

Stainless steel grommets every 12" across the top for flexibility in hanging your barrier. Optional track & trolley hardware to roll barrier open for the ultimate in versatility. Dual-wheel nylon trollies glide effortlessly on an easy-to-hang track.

**Track & trollies to
roll curtain open**

ORDER FORM

Step 1: Choose your Layout

Side 1

☐

Straight run (1 side)

Side 2
